### Application Notes:

Can be used to bundle wires, tape down cords, lighting and props, and mask silk screen frames. This product offers a combination of excellent holding power, conformability and high tensile strength to get the job done quickly and efficiently.

To achieve ultimate adhesion, the bonding surface should be dry, clean and free of dirt and oils. The strength of the adhesive bond is dependent on the amount of surface area directly contacting the adhesive. Firm pressure is recommended to obtain good adhesive to surface contact.

†Note: Values should not be used for specification purposes. Each user should make their own test to determine the products suitability for their own intended use and shall assume all risks and liabilities in connection therewith. Materials should be stored at 70°F (21°C) with 50% relative humidity
